

**ANNOUNCEMENT REGARDING THE CLARIFICATION REQUEST AND THE RESPONSE TO THE
CLARIFICATION REQUEST RELATING TO THE PROCUREMENT PROCEDURE OF A SUPPLY CONTRACT FOR
PHOTOVOLTAIC POWER PLANT WITH INSTALLED CAPACITY OF 14.06 MW, WITH STORAGE FACILITY, IN
COJANI, GORJ COUNTY**

Date: 24th of November 2023

General information on the beneficiary:

SERG COMPANY S.R.L., with registered office in Gorj County, Targu Jiu Municipality, 13 Primaveii street, Room 1, Floor, registered at the Trade Registry Office next to the Gorj Court under no. J18/43/16.01.2018, fiscal code 24563532, e-mail office.sergcompany@gmail.com, tel. 0724.358.661, **which launched the procedure for awarding the supply contract "PHOTOVOLTAIC POWER PLANT WITH INSTALLED CAPACITY OF 14.06 MW, WITH STORAGE FACILITY, IN COJANI, JUD. GORJ"**, on the 13th of October 2023, procedure carried out within the project entitled "PHOTOVOLTAIC POWER PLANT WITH INSTALLED CAPACITY OF 14.06 MW, WITH STORAGE FACILITY, IN COJANI, JUD. GORJ", a project to be carried out in the village of Cojani, within the city of Targu-Carbunesti, Gorj county, for the financing of which, the undersigned has submitted an offer (financing request), under the conditions stipulated by: the National Recovery and Resilience Plan; Pillar I. The green transition; Component C6 Energy; Investment measure - Investment I.1 - New electricity production capacities from renewable sources, Supporting investments in new electricity production capacities from renewable wind and solar energy sources, with or without integrated storage facilities, for which received the Decision regarding the acceptance for financing, mentions the fact that:

- on the 03rd of November 2023, at 12:27 p.m. (therefore, within the deadline for receiving requests for clarification from bidders), our company received a request for clarification from a potential economic operator, regarding the following aspects:
 1. *Regarding the nominal power of the panels requested by the specifications (min. 600 Wp), we were asked to communicate if a nominal power of 575 Wp / panel is allowed, respecting the other parameters in the specifications, with the proof of superior total performances and with the fulfillment of the required installed capacity of 14.06 MW*
 2. *Regarding the inverters of the photovoltaic power plant, we were asked to confirm the possibility of offering some inverters with an installed power higher than the minimum required*
- please consider our response to the received clarification request, as follows:
 1. *Regarding the nominal power of the photovoltaic panels, our company considers that there is no impediment in offering a nominal power of 575 Wp / panel, in compliance with the other parameters in the specifications, with the proof of superior total performances and with the fulfillment of the installed capacity imposed, of 14.06 MW, by demonstrating that the entire technical solution offered is superior to the requested one. The technical solution offered must take into account the realization of the object of the project, respecting its indicators, indicators that can be found in the specifications.*
 2. *Regarding the inverters of the photovoltaic power plant, our company considers that there is no impediment in offering inverters with an installed power higher than the minimum required. In this sense, please take into account the mention in the specification, which provides the following:*
 - *"Each bidder is free to choose the number and power of the inverters depending on their availability as well as their performance, but without exceeding the installed power provided in the Technical Connection Notice (ATR) for producers no. 001500007260 / 12.08.2022, attached to this documentation, respectively of 14.06 MW."*

Therefore, the technical solution offered must take into account the realization of the object of the project, respecting its indicators, indicators that can be found in the specifications.
